

ADAMIC TIMELINE

PREFACE

There has been an overwhelming appreciation for the study of timelines in the past few years, most of which mystify even the most avid readers. They are like a maze of mirrors reflecting time and space changed only by the smallest move followed by an unbroken line making it's endless journey.

This site is not a study of evolution or its theories, but about an investment God made with time and space.

After God designed the universe with its treasures, he took from its extremes raw material and fashioned a beautiful ball shaped greenhouse. He showed how he made the floor, fashioned a water and air filtering system, and installed a yard light giving the ceiling character.

"The heavens declare the Glory of God;"
"The firmament sheweth his handiwork."

[Psalm 19:1]

Yes, God put life in that greenhouse; planted trees and watered them. One must know by now that God was making a healthy environment for a very special guest.

"Let us make man in our image,"

[Genesis 1:26]

This study draws the conclusion that since man has been on this earth, God has been charting his course. Unless one truly looks, that course would never be found. It has been well camouflaged through the pages of scripture, and is recognized only after obstacles have been removed. Now the most troublesome verses that have annoyed scholars for ages, have a home.

When all the pieces of the puzzle are put in order, the picture becomes very clear. God's word proves itself, showing that all the numbers in scripture are there for a reason.
